823 12-2014 GWS binder.pdf

Here are the second round results for gw, taken in the fall. After you have a chance to look at both rounds, let's get together for a meeting to discuss whether this site can move toward closure.

Thank you.

**Subject:** Premcor 823, Mt. Pleasant, MI update

Hello, Bob.

Per our conversation, EnviroSolutions, on behalf of Premcor Refining Group, Inc., completed the second round of groundwater sampling at the former Premcor (Clark) #823 gas station site in Mt. Pleasant, MI in December 2014. A full report is attached.

After your review, we look forward to discussing the most expedient route to closure for this site. Thanks for your help with this project!

Sincerely,

Bill Karban, LPG
